NO EXPEDITION PROJECTED BY D'ANNUNZIO

(By Associated Press)
Rome, Dec. 7.—Gabriele D'Annunzio, the insurgent Italian Commander here, assured the Associated Press correspondent today that he was not projecting an expedition against Spalato and Laidach. The soldier poet gave his word of honor that this statement was true.

NO DECISION ON PROHIBITION BY THE COURT

(By Associated Press)
Washington, Dec. 8.—No decision in the constitutionality of the war-time prohibition and the Volstead enforcement act was rendered by the supreme court today and there was no indication when the decision would be handed down.

TO DO AWAY WITH ELECTRIC SIGNS

The National Fuel Administration has issued an order for the fourth curtailment of fuel by the discontinuing of all electric signs at night and the order will be enforced by the local administration.

Chicago, Dec. 8.—Hundreds of passenger trains were withdrawn from service on the railroads of the country today mostly in the middle west, south and southwest in accordance with instructions issued last week by the railroad administration and hundreds of other trains have been ordered nullified on Wednesday, chiefly in the east as a result of the coal strike. In New England alone orders were out cancelling nearly 300 trains on Wednesday. Several are to be discontinued in Pennsylvania, and even Canadian railroads have felt the coal shortage to such an extent that 25 additional

COMMITTEE AWAITS MESSAGE FROM PRESIDENT

(By Associated Press)
Washington, Dec. 8.—President Wilson today prepared a letter on the Mexican situation for transmission to Senator Fall, Republican, New Mexico one of the committee of two appointed to confer with the President on the resolution before the Senate foreign relations committee, requesting that diplomatic relations with Mexico be severed. This announcement was made at the White House soon after the foreign relations committee had met and adjourned to await a communication from the President before giving further consideration to the resolution.

passenger trains have been taken off including the crack transcontinental limited of the Canadian Pacific. The reduction of passenger service in the United States since the strike began November 1st amounts to approximately 1-3 of the total and in Canada a scaling of 321,699 train miles per month has been effected. Many hundred thousands of workers were idle today on account of the closing of non-essential industries from which coal has been held by regional committees and the curtailment of business hours in many cities. In Chicago, retail stores with the exception of groceries and a few dealing in foods opened today at noon and close at 5 p. m.

which was introduced by Senator Fall last week, Chairman Lodge announced that it was Senator Fall's request that the committee defer the action on the resolution when the resolution was taken up. He said Mr. Fall told the committee he would ask to have its consideration deferred until the President communicated with the committee. Senator Fall does not plan to make public his information on Mexican affairs until the President's communication is received. The committee discussed the Mexican situation for an hour, giving particular attention to the Carranza Oil Decree which members said have resulted in stupping drilling on new wells. The Jenkins case was not discussed it was said.

SENTENCE OF DISMISSAL APPROVED

(By Associated Press)
Washington, Dec. 8.—Sentence of dismissal imposed by a naval court-martial on Captain Edmund J. Chamberlain, an aviator in the marine corps, on charges growing out of his sensational claims of his having defeated a vastly superior force of German airplanes on the western front, was approved today by Secretary Daniels. He claimed that on July 28, 1918, on a trip over the British front, he had fought with twelve German planes, overpowered five of them, damaged two others and swept earthward with the damaged machines, scattering a detachment of German soldiers. He said that after landing he took a German prisoner by pretending that a compass was a bomb and then carried a wounded French officer back to safety. Detail of the exploit by British officers led to an investigation. Chamberlain contended that the failure of the British officers to believe his story was because the admission that an American officer had used a bluff machine would have resulted in their court-martial. The case now goes to President Wilson for final decision.

TWO KILLED WHEN SCAFFOLD COLLAPSED

(By Associated Press)

WILL MODIFY SOME OF TERMS OF PROTOCOL

A. S. HALSTEAD, REAR ADMIRAL, U. S. N. COMMANDANT.

Photo by Staples.

The editor of the Herald had a delightful interview this morning with Rear Admiral A. S. Halstead, the new commandant of the Portsmouth Navy Yard and he is so far delighted with his new duty.

Secretary Daniels said to the writer some few months ago: "I am going to pack a live wire as commandant for Portsmouth." He has done so. The Admiral came here from Brest, France, where he had charge of the naval forces. He returned to the states on the America and a passenger on that

ship was former U. S. Senator Hollis and the ex-Senator told the Admiral many pleasant things about our yard. He has had much sea service, but this is his first important navy yard duty.

He is a native of Pennsylvania and was born Dec. 17, 1861, and was appointed from Pennsylvania to the Naval Academy. He was at the outbreak of the war in command of the U. S. Dreadnaught Utah.

The Herald is pleased to print this fine portrait of our new commandant.

(By Associated Press)
Paris, Dec. 8.—The allies have consented to modify some of the terms of the protocol putting the peace treaty into effect to which Germany has made objection. The clause providing for the destruction of the German fleet at Scapa Flow has been modified so as to refer to the High Tribunal the question whether the delivery of the tonnage demanded will cripple Germany. It is understood, the understanding also is, that the other features of the protocol about objectionable to the Germans have been eliminated and the expectation here is that the German plenipotentiaries will sign the protocol without further delay. The final paragraph of the protocol providing that even after the peace treaty has gone into effect the allies might use military measures of coercion to insure the execution of the treaty terms has been eliminated. Only an also has the clause relating to the evacuation of the Baltic provinces by German troops. The implication of responsibility to Germany for the sinking of the Scapa Flow fleet is left to the protocol. According to the new information obtainable the note to the German plenipotentiaries regarding the signature of the protocol setting forth the allied position as indicated will be handed to Baron Von Lersner, head of the German mission, this afternoon.

REV. W. P. STANLEY HAS RESIGNED

At the Middle Street Baptist Church on Sun Day morning, with the close of the Communion services, the pastor, Rev. William P. Stanley, read his letter of resignation to take effect after the first Sunday in January. The resignation came as a shock and surprise to the congregation, and their regret was voiced by several members who spoke of the happy union that had been enjoyed during the eleven years Mr. Stanley has been the pastor, and their deep regret of the prospect of separation.

During his pastorate Mr. and Mrs. Stanley have endeavored to bring to the hearts of all the members, and young people have had in their who counseled and friend.

It is understood that Mr. Stanley had contemplated, at some time in the near future, taking a year of time from pastoral care, and the recent death of his mother, bringing circumstances and family demands that are compelling, seem to force him at this time to relinquish his charge, and make his residence for a time at the old home in Gloucester, Mass.

The entire community, irrespective of creed will learn with regret the leaving of Mr. Stanley from the city. He has been a loyal supporter in every good work.

Mrs. Stanley will also be greatly missed for there have been few women who had such an active interest in the good of the people of the city as Mrs. Stanley. She was a member of the executive committee of the Organized Churches where her excellent judgment was of great value and also a member of the executive committee of the District Nursing Association.

NEWINGTON

The Reapers' Circle met at the Town Hall on Thursday afternoon to decorate and to prepare the tables for the coming sale.

A pleasing affair the annual fair and sale under the auspices of the Reapers' Circle took place at the town hall on Friday evening. There was a good attendance and the hall looked very pretty with its prettily decorated tables, where fancy articles, aprons, candy, sandwiches, cookies and ice cream found a ready sale. The program was very pleasing, amusing and entertaining, but was not fully carried out owing to the absence of one of the readers. The Young Men's Orchestra furnished excellent music and the reading by Mr. Gould was rendered in his usual capable manner and was fully enjoyed by all.

GOLDMAN AND BERKMAN FIGHT DEPORTATION

(By Associated Press)

New York, Dec. 6.—Efforts to free Emma Goldman and Alexander Berkman from Ellis Island on bail will be made Monday if their writs of Habeas Corpus are dismissed by Federal Judge Mayer, their counsel, Harry Weinberger announced today. While both his clients are ready to go to Soviet Russia if permitted to pay their own expenses and select their own method of going, Weinberger said they have authorized him to carry to the United States Supreme Court if necessary his efforts to prove that their deportation would be illegal. Should Judge Mayer uphold the deportation proceedings Weinberger said he would move for a stay of deportation and for release of his clients on bail pending appeal.

THE CRIMSON ALIBI FOR OLD NIPPON

Next to being mysterious themselves, the people of the Orient like to know about mysteries. Since it is rather difficult to remain mysterious for any length of time in a commercial city like New York and since mystery doesn't come along every day, Oriental people must content themselves with reading about mysteries. Owners of book stores dealing in popular fiction say that mystery novels are the most popular with the Japanese who are versed in English and who come to purchase books. The same facts obtain in the theatres. Orientalists in large numbers patronize mystery plays in New York, according to the theatre box office attaches.

Last week there came to New York three owners of the Shokoku Dramatic Company, which controls the greater part of the theatrical business in Japan. The three officials were Mr. Matsushiro Shirai, president of the Osaka and Kyoto office, Mr. Takehiro Otani, president of the Tokyo office and Mr. Hattarō Shirai, the company sub-president. They attended a performance of "The Crimson Alibi" at the Broadhurst Theatre, and at this time are engaged in negotiating for this mystery-biller for a series of performances in Japanese at their various theatres in the Flower Kingdom.

This is by no means the first play from the pen of George Broadhurst to be produced in the non-English speaking countries. "Thought and Talk For" has been done in 29 different countries. "Today" in ten, "Man of the Hour" in 12 and "The Law of the Land" in eight.

BRIGHT OUTLOOK FOR SETTLEMENT OF COAL STRIKE

(By Associated Press)

Washington, Dec. 7.—Government proposals for settling the coal strike were disclosed in a veil of mystery, which will only be dispelled by the Federal Court at Indianapolis and leaders of the United Mine Workers.

Attorney General Palmer, with his assistant Judge Hine, were traveling to Indianapolis tonight on the same train

with John L. Lewis acting president, and William Green, secretary of the United Mine Workers, who's secret conference with General Palmer and Mr. Pennington, secretary to the President, resulted in a proposed agreement to settle the strike. Not one of the parties would discuss in any way the details of the meeting.

Before boarding the train last night, Mr. Palmer said that he was quite sure that the end of the coal strike was in sight. It was also learned that he would confer with Judge Anderson of the Federal Court at Indianapolis.

In officials' quarters, Post Administrator Garfield speaking in brief and with emphasis added to the doubt as to the situation. "My position has not

not been budged one inch and will not be," he said. It was recalled that Dr. Garfield on yesterday reiterated his statement that not a cent would be added to the cost of coal to pay the extra wages.

From other official sources there was only the Attorney General's statement at midnight, that a definite concrete proposal had been made by the President to John L. Lewis and William Green representing the Mine Workers and that they had agreed to recommend it to the Executive Board of the Mine Workers at Indianapolis.

(By Associated Press)

Boston, Dec. 7.—Discontinuation of 182 passenger trains on the New York New Haven and Hartford railroad and 77 on the Boston and Maine to take effect on Wednesday, Dec. 10, on account of the coal situation, was announced tonight. On the Boston and Maine nine will be Sunday trains and the rest scattered thru the system.

MEXICAN EXILES CAN RETURN

Mexico City, Dec. 7.—Repatriation of Mexicans who for the past few years have lived in the United States, Cuba and European countries is not hampered by the government provided those persons prove themselves of good faith, according to Aguirre Berlanga, secretary of government, speaking to El Democrata. The secretary points out that the return of the expatriates has shown an impetus of late. Congress now has before it a bill which would grant complete amnesty to persons of good faith now in exile.

WOULD REMOVE TATTOO MARK FROM FACES

New York, Dec. 7.—A simple method to obliterate from the faces of thousands of Armenian girls and women the hideous and indelible ink tattoo marks placed upon them during the war by Turks, Kurds and Arabs is sought by Dr. Wilfred M. Post of Princeton University, who has just returned from a trip through the Near East.

The victims of the branding and tattooing in every case were Christian and their captors thus marked them as Mohammedans. Freed from enslavement they sought at once to remove the evidence of their bondage, employing disfiguring acids for the purpose. Many of them flocked to the relief hospitals, Dr. Post said, to be treated for the acid-inflicted burns.

Dr. Post, who was born in Turkey and served as a medical missionary in that country before the war, said the tattooed women were among hundreds of thousands of destitute persons in that country who are being cared for by the Near East Relief workers from America.

"While removal of tattoo marks can not be classed with the urgent necessity of providing food and clothing for 800,000 starving Armenian women and children," says Dr. Post, "the wearing of this brand which shows that the woman has been an inmate of a harem seclusion interferes with the work of reconstruction and rehabilitation among such persons. During the four years that Turkey attempted to exterminate the Armenian people by a system of slaughter and deportation, practically every young woman in that country was at the mercy of the Mohammedans."

Removal of tattoo marks has never been given serious attention, according to prominent dermatologists. Occasionally a request has come from a former sailor to have some design removed from his arm or a society woman who wished to have the initials of her former fiance or husband removed, but the known processes of removal have been so dangerous and their success so questionable that physicians have considered the marks to be practically irremovable.

Several prominent dermatologists have offered their services to Dr. Post to assist him in his research work for the benefit of marked Armenian women. Among those who are aiding in the work is Dr. George H. Washburn of Harvard, who served in the medical corps of the United States army as a specialist in restoring the faces of soldiers who were disfigured by wounds.

STUDYING CONDITIONS OF HEALTH

Pana, Brazil, Dec. 7.—A party of physicians, engineers and naturalists sent by the Brazilian government arrived here yesterday to investigate conditions of health and industry. They are to report on the sanitary and health of the cities and towns of the Brazilian coast from Para to Rio de Janeiro study health conditions of the fishermen of that coast, collect specimens of fish and consider the possibility of developing the fishing industry.

The expedition is under the command of Captain Frederico Villar of the Brazilian navy, who is a journalist as well as a sailor, and is to be joined at Para by "an American scientist, Dr. Field, who has been engaged for this work by the Ministry of Marine," according to the local press.

The government, it is said, plans the installation of up-to-date housing accommodation for men engaged in the fishery industry along the coast among whom, according to Dr. de Menezes, belonging to the expedition, there is much intestinal disease and hookworm due to present living conditions and entire lack of sanitation.

Organization of this expedition is in line with the intelligent manner in which the Brazilian government has been working for years past to improve the general health of the nation. These efforts have resulted in entirely eradicating the plague of yellow fever from such ports as Rio, Santos, Pernambuco, Para and Manaus which were once known as "fever holes" divided by ocean sailors. The general health conditions of the Amazon Valley have been improved beyond recognition during recent years and yellow fever is at rare today. In Para and Manaus as in New Orleans or Galveston, and malaria is no more prevalent here than in the southern part of the United States.

The greater part of the valley is now healthy, and the so-called malarial districts could be made healthy if attention were paid to the instructions of the authorities in the matter of living conditions, sanitation, hygiene, food and clothing. As these regions are far from the centers of population it is difficult to enforce the public health laws.

The sanitary regulations policy in large cities like Para, Manaus, Santarém, along the main Amazon river, are very strict. At Para there is a rigorous examination and fumigation of incoming ships from ports known to

be unhealthy and the public markets are daily supervised by sanitary inspectors who are prompt to condemn markets that are not absolutely fresh. After the markets close, about noon each day, the buildings are disinfected and washed from ceiling to floor.

PLYMOUTH RETAINS ITS OLD CUSTOMS

Plymouth, Dec. 7.—Plymouth, from whence may come England's next warman, M. P., today is not the little seaport town which the Mayflower left. It is still a seaport, shipping and fishing being the principal sources of revenue, but it is also one of England's most flourishing seaports, boasting of a population of about 200,000.

Despite the city's prosperity and maritime importance, there are many of its customs which have remained unchanged through the three centuries since the Pilgrims waved their farewells.

American blue jackets have dubbed the town as "a blue o'clock town" for at that hour each evening the streets are practically deserted. Blinks are drawn, taxicabs are unavailable, and night clerks in the hotels have settled themselves comfortably for the night's slumber behind their desks.

But if it is a blue o'clock town in the evenings, it is certainly "a six o'clock town" in the mornings for that time sees the majority of the people setting about their day's tasks, the fish market and dockyards are in full operation, the shopping districts beginning to open and the streets are lively.

"Plymouth as a departing point for the pilgrims and more recently by the marked there of the NC-4 after her flight across the Atlantic, it is appropriate that Plymouth should again get her name into history through sponsoring the remembrance invasion of the Commons," commented one of Lady Astor's Unionist supporters.

HOARDING SUGAR IN NORTHWEST

Spokane, Wash., Dec. 7.—Orders for seizure by the Government of 5,000,000 pounds of sugar held at Sunnyside and Tappanville by the Utah-Idaho Sugar Company were issued today by United States District Judge L. B. Cushman of Tacoma, sitting here.

The orders were issued in a libel action brought by United States District Attorney P. A. Garrecht, who charged hoarding and attempted unjustified price increases by the holding company.

Of the sugar, 23,200 sacks are held at Sunnyside, it is alleged, and 24,800 sacks at Tappanville.

United States deputy marshals were sent today to take possession of the sugar.

The sugar ordered seized represents the output of the Sunnyside and Tappanville Refineries for 24 days ended Dec. 2. It was declared at the district attorney's office.

It was indicated a hearing will be held soon to determine whether the sugar shall be sold by the Government or returned to its owner.

CURTAILMENT OF PASSENGER TRAIN SERVICE

(By Associated Press)
Chicago, Dec. 6.—Hastile curtailment of passenger train service throughout the country has been ordered as a fuel conservation measure. As the strike of miners entered the sixth option which some operators were said to feel was not reflected in actual developments reported from the coal fields, additional industries today were closed or had given notice that operation would be suspended after today, while the coal saving orders that already have put Chicago on a 6-1-2 hour business day were extended to other places. At Chicago a six hour day beginning Monday was decreed and it was predicted by members of the coal committee that a few days continuance of the coal strike would force a four hour day. Only in isolated instances and in small groups were miners reported to be resuming production.

RENNER WILL BE HEARD BY THE COUNCIL

(By Associated Press)
Vienna Dec 7.—Dr. Carl Renner the Chancellor was notified by the Supreme Council that they would be willing to receive him personally to plead his country's desperate conditions. Dr. Renner will advocate that the Supreme Council establish a neutral dictator for his country and that the present form of government be abolished until a more stable form of government could be secured.

ROCKEFELLER FOUNDATION EXPENDITURES

New York, Dec. 7.—Expenditures aggregating \$16,050,202 were made by the Rockefeller Foundation during 1918 for the following purposes and in the following proportions, according to the annual report of the Secretary, Edwin R. Hambro made public here today.

First, war work, \$11,105,226.
Second, public health, \$1,250,000.
Third, medical education and research, \$2,110,800.
Fourth, miscellaneous, \$123,312.
Fifth, administration, \$140,868.
These outlays included more than \$5,500,000 for camp and community welfare work, the United war work fund, the Y. M. C. A., Y. W. C. A., and the Knights of Columbus, and \$1,020,000 for the American Red Cross.

In addition to its own departmental work the Rockefeller Foundation has contributed, the report says, to the accomplishment of work undertaken by other and unaffiliated organizations.

GIRARD OBJECTS TO U. S. MANDATE

"Knew we'd get together"

—Ches. Field

HERE'S where the particular smoker
H meets the particular smoke—Chesterfield.

Particular is right! Not only do we use the four choicest varieties of Turkish tobacco—Xanthi, Cavalla, Smyrna and Samsoun—but to these we add the rich, sun-ripened leaves of specially choice Domestic tobacco.

Fine as these tobaccos are, it's the exclusive process by which they are blended that gives to Chesterfields that satisfying body, that mellow richness which makes a smoke mean something.

Chesterfields certainly do satisfy as no other cigarette has satisfied you before—and to top it off, they are packed in a glassine paper package that preserves for you all of that delicious flavor.

Portsmouth, N. H., Monday, December 8, 1919.

A Subject That Demands Attention.

A list of very able speakers has been selected to address the Association of New Hampshire Assessors, whose annual meeting will be held at Manchester December 17 and 18. In addition to the addresses there will be discussions of various topics related to the tax question and the meeting is expected to be the most interesting and important held by the association in recent years.

In the columns of this paper attention has already been called to the fact that there is a growing interest in the matter of taxation throughout the state, and the same is true of the entire country. While those who have studied the question in detail are comparatively few, the great body of tax payers are aware that the expenses of government have been mounting rapidly in the last few years, and the more thoughtful are beginning to realize that unless care is exercised in the matter of appropriations the time will come, and come soon, when the tax burden will be uncomfortably heavy.

Cities, states and the nation have for the last few years been appropriating money as never before. Many of the extra appropriations have been directly due to the war and were unavoidable, but out of the conditions and the necessities of the situation the habit of free spending has become rather strongly fixed. The spirit of "Let her go, Gallagher!" is in the air and debts are being piled up which will be much more difficult to pay than they were to contract.

While there is no cause for alarm, it is not too soon to be giving thought to these matters, as will be done at the meeting in Manchester. And there is one fact which the tax payers should always bear in mind. This is that the assessors are not responsible for the tax rate. There are many people who, if they think their taxes too high, place the blame upon the assessors, who are as innocent as an unborn child, provided they have performed their duties accurately. These officials are called upon to assess the moneys appropriated upon the taxable property within their jurisdiction, and the tax rate will depend entirely on the liberality or cautiousness with which the appropriations were made. The rate is figured out, but never "made," by the assessors. This should be remembered and responsibility for high taxes should be placed where it belongs, and not upon the shoulders of officials whose work is largely clerical.

And it is a question whether the time has not arrived for more conservatism in the making of appropriations. There is no demand for what some are pleased to term a "cheese-paring" policy. Needed public improvements must be had and public institutions must be suitably maintained; but the time is coming, if it has not already arrived, for the exercise of judgment and reasonable economy in the matter of public expenditures if the tax burden is not to become unnecessarily severe.

These are facts which sooner or later will force themselves upon the public attention if they are not met half way. It is hoped that out of the gathering at Manchester may come suggestions of value to the people of the state, who, in common with those of all the states, have assumed obligations since the beginning of the war, the magnitude of which will not be fully realized until pay day comes.

The State Constitutional Convention has decided that the war is over and will reconvene at Concord January 13. It was assembled in 1918, but adjourned after a three days' session until "after the war." Any amendments adopted will be submitted to the voters at the regular election next fall.

Germany also wants some "reservations" in connection with the peace treaty and insists that certain clauses in the protocol must be eliminated before she will sign. Another case of "Hands across the seas?"

The latest program, according to a Boston paper, is to limit the people of New England to two pounds of sugar per capita for the remainder of this month. And this more than a year after the close of the war!

Ten thousand tons of flour was shipped from Boston last week to Greece. And yet some people are wondering why the price doesn't come down.

Secretary Glass says the excess profits taxes are passed along to the people and thus serve to keep up the cost of living. In time of trouble there is nothing like an explanation of the causes, albeit that does not invariably bring relief.

Large numbers of Christmas trees are being shipped to the big cities from numerous parts of New England, carrying pleasure to thousands of children who otherwise would never see such trees and smell their fragrance, and some welcome holiday cash to the pockets of the farmers from whose lands they are taken.

CAPT. E. H. BROWNELL, U. S. N.
(Photo by Staples)

One of the best known officers on duty at the Navy Yard is Captain E. H. Brownell, U. S. N. (Civil Engineer Corps). He has put in a number of years of duty here. At present he is head of the Public Works Department at the yard and is a member of the bridge commission. Much of the actual work in connection with the bridge will be done under his direction. "Our Memorial Bridge" as it is called is progressing and the work of preparing the plans will develop largely upon the engineers of which Captain Brownell is the senior member.

EDITORIAL COMMENT

Radical Treatment for Radicals.
(From the New York Herald)

In a recent speech in this city United States Senator McCallister of Tennessee, said:—"Give the foreigners who come to our shores five years to become an American citizen. If he hasn't taken out his papers by that time, start on the road to citizenship and finally reach that goal—send him back to the country from which he came." The Senator's plan of campaign against the radicals and anarchists who are plotting against the American government and American institutions involves the sending of all such people to the Philippine Islands, there to be confined and restricted until they become safe for America to entertain. If that time is never reached, at least these undesirable are unable to work the harm they contemplate. But, of course, there is no good reason why they should be inflicted upon the Philippines.

These suggestions indicate how seriously officials in Washington look upon the spread of radical activity and how important they deem prompt action by Congress. Additional legislation is necessary, yet that is not all. There must be vigorous enforcement of the laws already on the books. Progress and will not cure the social disease statute books. Education is necessary, yet that is already here and in daily evidence. The deportation of Emma Goldman and Alexander Berkman will do more to warn the trade and check their insidious activity than new legislation or efforts at education. It is useless to attempt to educate such people as the Goldmans and the Berkman. Nothing will change their mental strabismus or their social vision. However sincere and sentimental may be their aims and their embraces as "comrades" the fact remains that their ideas of the mission of social and political organizations, their construction of the term "American liberty" is wholly at variance with the teachings of the founders of America and the aims and ambitions of their successors. For years the United States has invited the oppressed of all countries to come to these shores—come to America, the land of opportunity. This blessed privilege has been abused. In the course of time a monster has been growing up, something to devour America. It is time to strangle the monster!

Federal Law Increases Game Birds
(From the Washington Post)

"The Federal act which prohibits the shooting of birds while on their spring flight to the Northern nesting grounds has greatly increased the amount of game and it is now finding favor with hunters," remarked T. A. Munson of St. Paul. "The shooting this year has been the best in many seasons, and there can be no doubt that this is directly due to the law. Birds are plentiful and a good many of the ducks are remaining wherever they can find open water and feeding grounds. Canvas-back, blackjack and wood duck have appeared in large numbers, and the flights of geese and brant have greatly increased. It would probably be a good thing if the law could be extended to take care of the fast-disappearing big game of the Northwest. Montana has lost heavily in deer and elk within a few years, and seemingly there are people who do not care how soon the last of the big game is wiped out. The slaughter near Yellowstone Park has been terrible, and it is only a matter of a few more seasons when the big game will be gone unless the Federal Government takes action."

UNEARTH A SHORTAGE IN VIENNA

(By Associated Press)

Vienna, Dec. 8.—Mayor Heumann has just disclosed to the Vienna city council a loss to the city of 14,000,000 of more-crowns through a business venture by a former council member, Mayor Welschbacher. In the beginning of the war the mayor organized a committee to collect public subscriptions for the relief of soldiers and their dependents. It is charged that Welschbacher advanced huge amounts from this fund as well as city moneys to himself. He then undertook to exploit several schemes for the benefit of Vienna. Among Mayor Heumann's ventures was the operation of a large plant for the production of artificial milk and a factory to manufacture artificial leather. A building was erected for the milk process scheme but it was never put in operation while the shoe factory proved a dead loss.

To cover its losses it is charged that the mayor drew upon funds raised by well-known guilds and upon other charities all over the country and from the profits of municipal war enterprises without reimbursing the opposition members of the council of his action.

No accounting of the charity funds was ever made so that the use of these funds was not discovered until the present government took office.

HANSEN ACTED ON HIS OWN INITIATIVE

(By Associated Press)

Mexico City, Dec. 7.—Sulter Hansen who furnished the hall upon which W. O. Jenkins, the American consul agent at Puebla was released last Thursday night, in a statement tonight declared that he had acted on his own initiative. Mr. Hansen said: "I wish to say that on Tuesday morning last on account of certain facts that came to my attention which I am not in a position to disclose, I suddenly realized that war between the United States and Mexico was inevitable unless one of the governments was ready to sacrifice its honor and dignity by receding from the dangerous position into which it was forced. I, therefore, took all the steps necessary to effect the immediate release of W. O. Jenkins and relieve the tension. I did so spontaneously and of my own initiative and I am ready and willing to take upon myself the full responsibility of credit according to the point of view. It was a source of infinite pleasure to me to hear that the news of the release of Jenkins cheered our President and I ardently hope that his complete recovery is near."

MAKE COLOR PHOTOGRAPHY POSSIBLE

(By Associated Press)

London, Dec. 8.—A secret invention, invented by a Russian professor, which it is asserted will make color photography possible for everybody is about to be introduced into this country. The problem of making the process capable of amateur as well as true work is claimed to have been overcome and the exposure can be as rapid as with the ordinary emulsion, thus fitting the invention for moving picture work also.

Special cameras and plates will be on the market shortly and the cost of a colored film is expected to be only 15 to 20 per cent higher than the ordinary black and white type.

TOMORROW MAY SEE END OF THE STRIKE

(By Associated Press)

Washington, Dec. 8.—"Hope for the settlement tomorrow afternoon of the controversy between miners and operators and the government" was expressed in a formal statement issued today at the White House. The statement followed: "It is hoped that there will be a settlement on Tuesday afternoon of the controversy between the miners, the operators and the government through the acceptance of the miners of the plan for a definite settlement proposed by the President, which proposal was submitted to acting president Lewis of the miners by Attorney General Palmer Saturday night." The utmost secrecy still surrounded the President's proposal and Secretary Taft and other officials refused to supplement the White House statement. It was learned, however, that the proposal made to the miners was from the President himself and was in the form of a memorandum written by him.

Washington, Dec. 8.—In agreeing Saturday to urge upon the miners' representatives acceptance of the President's proposal, John Lewis, acting president of the United Mine Workers of America, was said to have informed Attorney General Palmer of the difficulty he was having in view of the feeling created among the miners of the injunction proceedings and the general attitude of the government.

Lewis was said to have expressed willingness to attempt to change this feeling if given assistance from responsible government officials in dealing with the men.

There were reports today that the President's proposal was that the miners accept for the present the 11 per cent wage advance proposed by the Administration. Garfield said that the "final adjustment of wages and working conditions be left to a committee to be appointed by the President. Some are said to have been given as to the personnel of the committee. The method of obtaining data which will be put before it and other points which are reported to have induced miners to consider their prospects under it more favorable than they otherwise would be.

NAVY YARD NOTES

Three Eagles to Sail

Three Eagle boats, No. 4, 53, 60 which have been kept in commission at the local yard since their arrival all shortly leave for Hampton Roads. The department has assigned No. 60 to the Naval Academy at Annapolis for instruction work of midshipmen. No. 53 will go duty at the Aviation Station at Pensacola and No. 4 will go through the canal for Honolulu.

Looking for Ensign Gordon

Although out of the service the navy department is looking to apprehend a former Ensign, Frederick Gordon, who is alleged to have circulated several worthless checks while in the service. Gordon is said to belong in Philadelphia and on entering the service in 1918 was connected with the Aviation Corps as a quartermaster, later he was made an ensign and placed on the retired list last May.

Must Vote in Morning

The two hours allowed for Portsmouth yard employees to vote in the municipal election on Tuesday will be taken in the morning up to 9:30 o'clock.

POLITICAL ADVERTISEMENT. OF THE CHAIRMAN OF THE REPUBLICAN CITY COMMITTEE

Evidently Mr. Gough, the Chairman of the Republican City Committee, who wrote the literary masterpiece in the Royal Reporter, Saturday night, does not need a diary to know that I am a Democrat, and proud to be one. I did change my politics from the Republican party, and I have no apologies to make for doing so. I am glad I did so, and thus escaped being obliged to give allegiance to an organization headed by ex-Democrat Ernest L. Gup-Till, and ex-Democrat John Yawwood.

No one has ever had to question where I stood. I have fought my battles in the broad light of the day. Many people here remember when the chairman of the Republican City Committee was the most active Democrat in town, and everyone remembers that it was just 15 years ago that he turned over to the Republicans and jumped in and took control. Everyone knows since he joined the Republicans he has held office continuously for nearly nine years out of the 15. It is quite likely that he does not keep a diary of his political experiences for if it were ever found it would cause him many sleepless nights.

Now I am not a candidate for any office. I have lived here all my life. I have fought my way against odds, and what I have today is honestly mine. I have only one other word to say and that is that I am a Democrat, always shall be a Democrat, am proud of it, and will always be found working for my party and against any such aggregation of men as those who are now running the city. I welcome this opportunity to take my stand.

CONVENING OF GRAND JURY POSTPONED

(By Associated Press)
Indianapolis, Dec. 8.—The federal grand jury, summoned by Federal Judge Anderson, to investigate alleged violation of the Lever Act and Anti-Press law by operators, miners and coal miners in connection with the bituminous coal strike, will not be impaneled, United States District Attorney Slack announced today. He said this step had been postponed until 1920 tomorrow. While announcing that the convening of the grand jury had been postponed until tomorrow, Mr. Slack would not say that the jury would be impaneled at that time. It was indicated that the calling together of the jurymen would depend upon conferences today with District Attorney Palmer and others who were on their way to Washington.

DAYS OF PRIDE HAVE GONE BY

Patched Up Clothing and Old Shoes Made to Go the Limit.

Shoe repairs and menders are among the busiest people of the country today. Why? The answer is easy. Thousands of people who have for years never worn a resoled shoe or a patched suit of clothes are now taking such articles of wear to the repair shop.

The days of pride have gone by and patched shoes and patched trousers are more evident than ever before. By the present outlook and prices, people will continue to patch up the old and footwear.

POLITICAL ADVERTISEMENTS

Portsmouth, N. H.
Tom C. Leckey to the Public.
There are a good many people in Portsmouth who do not understand the struggle in the political situation about Leckey and his kind. It is easily explained to you all in a very few words. I was on the council two years and was looked for this next council but I declined as I said I had been here long enough. I was going on the board of Public Works as I could do better work there, and the road collar came along and spiked me because they knew of some one else.

I am not particular about this place only I don't like to be slammed. I told the Road Rollers I would run independent. If you want to see Leckey, look at one of your principal avenues (Miller Avenue) from Middle to South about one-half mile long. Some of the map shot shooters should take a snap shot of it before the big snow storm comes and Billy Dowdell gets his snow sled out to make a path for people to get into the city when the snow don't run. If you want to vote for me, I might just write my name in full as below and put a cross at the end. You have read the first this is the last good night.

U. S. N. another one of the devoted members of St. John's has passed away, and a member of one of the old families who worshipped at this church. The pastor at the service on Sunday morning paid a well deserved tribute to the devotion of Mrs. Cogswell to the church and referred to the fact that few whose grandfathers formerly worshipped in this church are now members of the parish, these old families having passed on. Convalescers from this parish were out on Sunday afternoon visiting on parsonage in the interest of the national wide campaign of the Episcopal church.

HELD HERE FOR LACK OF COAL

The steamship Nippon, which was to have been turned over to her new owners on Monday, preparatory to sailing, is held up owing to being unable to obtain a supply of coal for her bunkers.

WOULD BE BAD FOR HOLIDAYS.

It is not a very pleasant contemplation for the managers and patrons of the Massachusetts Northeastern road that the power is likely to be shut off by reason of no coal for the big plant at Portsmouth. Coming at holiday time this would mean a marked inconvenience to the people and it certainly is to be hoped that something may be done to avert what would be pretty near a calamity. —Newburyport News.

MOOSE HOLD BIG TIME FROLIC

The third grand frolic of the Merrimack Valley Legion No. 39, Loyal Order of Moose was held in this city on Saturday evening and it was a grand good time for all those who were fortunate enough to be present at the work and the banquet which followed.

There were delegates and candidates present from Gloucester, Newburyport, Haverhill, Lawrence, Greenfield and New York City in addition to this city and they were willing to admit that the local members are good entertainers.

The work was held at the Lyttin hall and G. N. M. O. J. Audit presiding. A series of fifty questions were given the second degree and the degree team did

their work thoroughly as the Gents can well testify. Following the work adjournment was taken to Moose hall where Caterer A. W. Simpson & Co. had prepared the following menu:

Orange Fruit in a Melancholia
Lobster and Shrimp Salad
Roast Turkey
Cranberry sauce Mashed Potatoes
Strawberry Shortcake Ice Cream
Cigars Coffee Cigarettes

During the banquet an entertainment was given by David Cohen rendered a violin solo Moses Barrow and Welsh rendered a vocal duet. Master F. L. Barrow a buck and wing dance and M. Pamondan a cornet solo.

G. N. M. Audit ended on Governor J. H. Bartlett, Mayor H. H. M. Parsons of Gloucester, Dist. Dictator Silas of Newburyport, for short remarks. The next meeting will be held in Gloucester on Feb. 1.

HIGH GUN AT COUNTRY CLUB SHOOT

Col. F. L. Buck U. S. A., of Port Constitution was high gun at the weekly trap shoot at the Country Club on Saturday afternoon, scoring 45 out of 50. In the first twenty-five he broke 24 in the second twenty-five he broke 21 missing his first and missing twenty-four straight. It was excellent shooting by H. B. Tilton and H. T. Widdell were second with 43 and F. A. Holden third with 42.

There were a number of officers from the navy present and they did remarkably well considering it was their first time at the traps. Lieut. Commander Morse was high for the naval officers. Lieut. Ross who shoots well winking out a new gun and fell off materially in his shooting.

During the afternoon there was considerable revolver shooting and here after a stated revolver program will be shot off in conjunction with the trap shooting.

ELKS PAY FITTING TRIBUTE TO THEIR DEAD

Impressive Services at the Colonial Theatre---Judge Riley the Orator--- Fine Musical Program

The Elks Memorial Sunday * r their absent members—those who have taken the long journey, was held at the Colonial Theatre on Sunday afternoon and at the same time every lodge of Elks in the United States, and there are 1200 of them, were engaged in the same duty of paying a tribute to their dead.

The theatre was crowded, the members and their special guest the G. A. R. and other Veterans organizations were given seats in the front of the theatre and the remainder of the house was open to the public who took every seat in the main body of the house and the gallery it was a very interesting and an unusually impressive service.

Judge Thomas P. Riley of Malden was the orator and his eulogy was exceptionally brilliant and interesting. He is a very fine speaker and he handled his subject Sunday in the spirit of the day. There was an excellent musical program and the Lodge of Harmony by the office of the Elks was very impressive, especially the final roll call when a candle for each member who has passed beyond, was put out as the name of the member was called by the secretary of the lodge. The Colonial orchestra very ably assisted in rendering these excellent selections.

Rev. Nelson Kellogg the pastor of the St. John's church offered the opening prayer and Mrs. Mary Priest and Mrs. Harvey Hill rendered two solos each. Thomas Lynch in his usual dramatic manner recited "Thanatopsis".

Judge Thomas P. Riley said in opening that the services for the departed members of the Elks was one of the finest things he could think of, for it was written in the laws of the Order that the first Sunday in December shall be set apart to be devoted to the memory of absent brothers and today he said 1500 lodges all over the Country are paying their like tribute to the Elks who have gone before.

He gave a brief history of the Elks and said that one of the finest expressions in his ritual was that which said "The faults of the members we write in the sand their virtues in tablets of love and memory." He spoke of the charities of the Elks and the quiet manner in which they were dispensed and he said that yearly millions of dollars from the lodges and as much again from the individual members is given to the needy and the afflicted without anybody being the wiser of the gifts.

The order is a great upholder of Americanism and part of its creed is love for country, love of home and that due reverence shall be paid to womanhood. If any of the Elks violates the tenets of the Elks faith, he is stripped of his membership and no longer can be known as an Elk. He spoke of the cardinal principles of the lodge the greatest are those of love and charity. Speaking of love he said that love of the boy for his ideal man and the love of man for women were beautiful but still greater was the love of man for man, based upon the knowledge of each other and not awayed by passion which lived with death. He said that after death the good deeds of men are recorded and exposure of their virtues made known by their friends and he made a strong plea that the same expression of the

virtues and good deeds of all be given expression to in life and not to wait until they have passed beyond. It would eliminate much suffering in many cases and make life much more beautiful. The spirit of the Elks love and charity, love for country and home and reverence for womanhood he hoped would be adopted by all so that this world could be made still more beautiful.

The Association of New Hampshire Assessors will hold their annual meeting in Manchester, N. H., December 17-19 and 18th, 1919.

All the Mayors and members of the City Governments of the cities in the state have been invited to attend, also schoolmen, tax collectors, and prominent men of the state will be in attendance. The Governor of the state will be present.

Thursday evening, December 18th, will be Mayor's night, and Professor James P. Richardson, head of the Department of Law and Political Science at Dartmouth College, will deliver an address upon "Current Tendencies and Problems in Municipal and Local Government." Addresses will be made by members of the State Tax Commission. Other prominent speakers will talk upon timely subjects, pertaining to state policies. The strongest and best program the Association has ever presented is being prepared.

WALDRON PROTESTS THE ELECTION OF RAMSDELL

Calls for Recount of Ballots Cast at Dover City Election.

Charles G. Waldron, the Democratic candidate for mayor of Dover, at the municipal election held on Nov. 25, has contested the election of his opponent, Alvah T. Ramsdell, and calls for a recount of the ballots cast on the above named date. Mr. Ramsdell, on the face of the returns, had a majority of 52. The petition of Waldron to the Dover city council is the following:

"Your petitioner, Charles G. Waldron, of said Dover, respectfully represents that he was the candidate of the Democratic party at the municipal election held in said Dover on the 25th day of November, 1919, for the office of Mayor; that the Republican candidate

"Charles G. Waldron, Dated at Dover, N. H., Dec. 2, 1919."

WILL VOTE IN PROBATE COURT ROOM

Owing to the fact that the Ward two voting place in the old court house is no longer available, the voting in this ward on Tuesday's election will take place in the new court house on State street and in the Probate Court room.

The County Commissioners, meeting last night, decided that the ward two will cast a big vote this year, there have been a large number of new houses placed on the ticket and they believe the ward will vote out its usual majority.

HEAVY RAIN SATURDAY NIGHT

There was a decided rise in the temperature on Saturday night, followed by a heavy rain which continued into Sunday. The weather cleared away in the day and by night the temperature was more reasonable.

The rain spoiled the excellent skating for the time being but it will not require much of a freeze to make it good again.

COMMUNITY SERVICE

Growing out of the War Camp Community Service which has been a great benefit to the soldiers, is Community Service, one of the by-products of the war which promises to be permanent. During the period of demobilization the "War Camp" part of the name will be retained, but afterwards dropped and the service will be boundless.

The War Camp Community Service brought soldiers in touch with the right sort of people in the communities where they were stationed. This interest in and care for the soldiers will be continued during the transition from khaki to civvie.

It can readily be seen that service of this sort would be of assistance to the ex-soldiers as well as to the soldier, and to men in any occupation. It is the purpose of the volunteer force of workers in Community Service to direct the welfare work among those unemployed in industrial centers, to stimulate the building of community homes and to care for the large permanent army which will be maintained.

This proposed not to lose the advantage gained by the effort in a great democratic brotherhood movement which the War Camp Community Service carried among soldiers as an incident to winning the war.

Here in Portsmouth Community Service, after January 31st, will be under the direction of the Army and Navy Association with which War Camp Community Service is now cooperating, as Daniel Street by maintaining a cafeteria and conducting dances. These activities combined with music, drama and games meet a real need of uniformed men who testify to the fact by their participation.
